All you've always wanted to know about the SCIENCE CITATION INDEX® but never found time to ask.

If you've heard about the *Science Citation Index*, wondered how it works or compares with traditional subject indexes, here's your chance to get the full story.

A comprehensive booklet discusses every facet of this unique indexing system. And it's available to you without cost or obligation.

The booklet is full of facts, figures, theory and how-to-use-it information. For example, you'll find discussions of:

- How the *SCI*® employs citation and Permuterm® subject indexing to avoid use of ambiguous terminology.
- How the *SCI* covers over 90% of the significant scientific and technical journal literature.
- What citation indexing is.
- How the *SCI's* sophisticated, computer-based information processing reduces the time lag between original publication and indexing to a bare minimum.
- How to perform four basic types of literature searches—with sample indexing entries shown in detail.

So if you want to know all about the *SCI*, now's the time to ask. Send for your free booklet or ask for any reasonable number you may need for your organization.

Please send me _____ copies of your booklet on the *Science Citation Index*® without cost or obligation.

Los Angeles, CA 90069
Phone: 213-659-3597

Southeastern
Ronald R. Hamilton
P.O. Box AF
St. Augustine, FL 32084
Phone: 904-824-8644

ISI representatives are highly trained, professional information specialists. They're experts on the many ways to use one of the world's most comprehensive lines of information services covering the journal literature of the sciences and social sciences. And they're also knowledgeable when it comes to the governmental or other commercial information resources you may be using. So they're well prepared to help you find the most efficient way to satisfy your journal information needs.

They'll discuss with you the fields you want to cover, and analyze the journal information retrieval systems you're currently using. They'll make suggestions about services which would complement your present ones, and advise you of new ways to use familiar resources.

In short, they'll propose a package of journal information services that's individually tailored to your special budget limitations and information requirements. Whether you're working alone, or must consider the needs of a whole team, ISI representatives can determine the best combination for you.

Wherever you are in the United States, why not contact your nearest ISI representative today?
